FOR YOUR URGENT ATTENTION | reuniteservice.com.au

Reunite Carer Assist will be launching in QLD in December 2011.

The sudden injury or illness of a primary carer can result in severe health and safety concerns for the person they care for (care recipient).

Reunite Carer Assist is designed to help police, paramedics, and emergency medical staff identify primary carers i.e. people who play a vital role in the health and safety of another person.

When a primary carer registers their care recipient, they have expressed their desire for Reunite to be contacted first, in the event something happens to them.

This ensures we can arrange emergency care for the care recipient.
